IRVIN INGELS, Proprietor

CAUTION: Owing to the perishable nature of Trees, Plants, etc., it is very important that they be obtained direct from the propagator or grower. Remember we employ no Agent or Traveling Salesman. You deal direct.

Partial View of Residence in winter. From a photograph.

Photo of proprietor's front lawn as seen from the rear.

Partial view of residence on the left.

Tenant houses on the right.

In presenting this my nineteenth annual catalogue, beg to say we are better able than ever to furnish the tree planter or fruit grower with trees and plants of the most desirable kinds true to label and at extremely low price.

Have now on hand one five acre block of three year old Apple trees containing about 85,000 trees in over fifty varieties of the most valuable and desirable kinds for planting in the middle west.

These trees are on well drained upland prairie and are far superior to the soft wooded trees grown on rich bottom land.

We are growing annually a large lot of Peach, Plum and Cherry and have on hand a most complete assortment of early, medium and late varieties of the very choicest and hardiest kinds suitable to this particular region.

Wish to call particular attention to our large stock of Evergreens, and especially Pines, Spruce and Arbor Vitæ, the hardiest and most suitable for windbreaks or shelter-belts. Are making extremely low prices per 100 on these kinds.

Our twenty years' experience growing fruits for the market puts us in position to **know** what are the best and most desirable kinds to plant, and parties entrusting their orders to me will be given the benefit of this experience in selecting varieties for either market or family garden.

Our fruit plantation comprises over sixty acres in bearing of Apple, Pear, Plum, Peach, Cherry, Grape, Raspberry, Blackberry, Gooseberry, Currants and Strawberries, enabling us to propagate direct from bearing trees and plants, insuring stock true to label and of varieties known to be hardy here.

Remember, we employ no agents.

TERMS AND CONDITIONS

TERMS—CASH ON DELIVERY—5 will be furnished at 10, 50 at 100, and 500 at 1.000 rates. Stock that does not grow under proper treatment will be replaced at half price.

NO AGENTS EMPLOYED—We prefer to deal direct with the planter.

ORDERS BY MAIL—Special attention is given to mail orders, and all questions in regard to varieties, planting, cultivating, etc. will be promptly and cheerfully answered.

NO MONEY ASKED IN ADVANCE—When you receive your trees, and find them as ordered, the money for them will be due, and not before. We guarantee satisfaction, or no sale.

IF AFTER reasonable care has been bestowed, losses occur, it is my custom to replace such plants at one-half the regular catalogue price, or give equivalent value in other stock, but I do not insure their lives. Errors or omissions will always be cheerfully corrected, and if any plants prove to be not true to name and as represented, they will be replaced by others of correct kind and grade, without charge, or the price originally paid for them refunded.

CERTIFICATE OF HEALTH—Our grounds are annually inspected by the state entomologist, and we hold a certificate from him that there is no dangerous insect, or contagious disease of fruits on our premises.

Am anxious that all the stock I sell shall live and flourish, and that all my patrons shall be fully satisfied with their purchase. If they are dissatisfied in any way, I wish to be informed of the fact and allowed to do justice to them and myself.

All retail orders will be given my personal attention, which enables me to guarantee first class stock, carefully packed and true to label.

Dealers and those buying in large quantities please write for wholesale prices on any particular class of goods, as we grow many varieties of both fruit and ornamental trees for the wholesale trade.

Our young Apple Orchard of twenty acres. Rows eighty rods long, thirty-two feet apart.
From a photograph.

APPLE TREES

VARIETIES

Standard Trees, 5 to 7 feet high, 3 years old, each, 25c; per 10, \$2.00; per 100, \$18.00; per 1,000, \$125.00.

NOTE—The following is not only a list of varieties we can furnish, but is what we *have* on hand of our own growing and that will be fresh dug, properly labeled and carefully packed. Where the selection of varieties is left to me, will give the very best assortment. Order early while list is complete.

SUMMER

Astrachan Red—Large, deep crimson, sub-acid.

Duchess of Oldenberg—Streaked with red, good sized, juicy, rich, sub-acid, very productive, early bearer.

Keswick Codlin—A large, oblong, straw-yellow apple. The tree is vigorous, bearing abundantly and when quite young. August to October.

Early Harvest—Straw color, tender, juicy, fine flavor.

Yellow Transparent—White, tender, and juicy, tree comes into bearing immediately.

Red June—Medium sized, deep red, fine flavor, very early and productive, very best for eating.

FALL

Autumn Strawberry—Tender, juicy, sub-acid.

Bailey Sweet—Rather large, striped, flesh tender but not juicy, rich and sweet.

Bietigheimer—Very large, handsome, flesh white, sub-acid, tree productive, early bearer.

Chenango Strawberry—Large, oblong, red and yellow, very handsome.

Dyer—Rather large, flesh very fine grained, tender, very juicy, excellent flavor.

Fameuse or Snow—Deep crimson, flesh white.

Gilliflower—Dull, purplish red, nearly black, rich flavor.

Gravenstein—Large, striped, and of the very best quality.

Lady Sweet—Large, roundish, green and red, sweet, sprightly, and perfumed, good keeper.

Maiden's Blush—Large, beautiful yellow with flush cheek, best quality.

Pound Sweet—Extra large, pale green, coarse grained, sweet, good flavor.

Porter—Large, oblong, yellow, flesh tender.

Summer Rambo—Medium, flat, striped, good quality.

Wealthy—Large, red, sub-acid, very juicy, bears young, immensely productive.

Wolf River—Extremely large and handsome, shaded and striped with red, early bearer, very hardy.

WINTER

Arkansas Black—A remarkably large and handsome crimson-black apple, flesh yellow, juicy and delicious, keeping late, February to April.

Looking down nursery row of three-year Apple Trees. From a photograph.

APPLE TREES—WINTER—Continued

Ben Davis—Large, striped red, good bearer.

Dominie—Large, light yellow, striped, extra fine quality.

Fulton—Beautiful yellow with red cheek, excellent flavor.

Grimes Golden Pippin—Good sized, yellow, of very best quality.

Golden Russet—Dull russet, crisp, juicy, rich.

Jonathan—Medium sized, dark red, extra fine quality.

Iowa Blush—Medium size; finest tart. Tree extremely vigorous and hardy on the prairies; early and abundant bearer. November to January.

McMahon—Originated in Wisconsin, large white, sometimes striped pale red, flesh white, fine grained and tender. August to September.

Mann—Large, green, mild sub-acid.

Minkler—Large, greenish yellow, striped red, fine quality, good bearer.

Missouri Pippin—Medium sized, bright red, flesh white and firm, aromatic, early bearer.

Milam—Medium, dull red, splendid keeper, and of best quality.

McIntosh Red—A handsome apple of fine quality.

Northern Spy—Large, striped, mild sub-acid, delicious flavor.

Northwestern Greening—Very hardy, yellow, of good size.

Pewaukee—Large, dull striped, red and yellow, sub-acid, aromatic flavor, tree very hardy.

Pennock or Large Romanite—Red, coarse grained, mild flavor.

Roman Stem—Medium sized, yellow lightly russeted, extra good quality.

Seek No Farther—Medium to large, striped, dull red, flesh tender, rich, and of excellent flavor.

Shackelford—Large, high colored, striped, fine flavor, new variety from Missouri of extra value. December and May.

Stark—Large, striped, coarse, mild sub-acid, valuable as a keeper.

Talman Sweet—Medium sized, yellow, shaded red, sweet, good quality.

Waldbridge—Medium, striped red, tree very hardy.

White Pippin—Large, greenish white flesh brittle and juicy, good keeper.

Wine Sap—Medium, large, dark red, crisp and juicy.

Willow Twig—A well known variety, large, striped, sub-acid, good keeper.

Winter Rambo—Medium size, streaked yellow and red, highly esteemed old variety.

Yellow Belleflower—Large, yellow, flesh tender and juicy, one of the best.

York Imperial—Medium to large, yellow, shaded red, firm, juicy, sub-acid, an excellent shipping apple.

DWARF APPLE TREES

Astrachan Red, Yellow Transparent—On Paradise stock, 3 years old, 4 to 5 feet.

Each, 40c; per 10, \$3.00.

Apple trees grown as dwarfs come into bearing very much sooner than standards, in fact they begin to bear the second year after planting. The dwarfing makes them bear profusely. They are well adapted for town lots or small garden, where a large tree would not be desirable. The above list embraces the most popular summer varieties.

NOTE—When you buy trees of me you have no irresponsible tree peddlers to deal with, or tree agent commissions to pay, you deal direct with the nursery and get your trees from first-hands. If our stock is not as represented you know where to find us.

Young Apple Trees in the nursery row stripping leaves preparatory for fall digging. From a photograph.

All eighty rod row of Kieffer Pear Trees on Home Nursery grounds. Taken from a photograph.

APPLE TREES—Continued

CRAB APPLE TREES

First class, 5 to 6 feet. Each, 35c; per 10, \$3.00.

Hyslop—Large, dark red, productive, valuable; best for all purposes.

Transcendent—This is one of the best and largest of the Siberian Crab. The fruits are $1\frac{1}{2}$ to 2 inches in diameter; bright yellow, striped red; excellent for culinary; immensely productive.

(Mail orders given special attention).

PEAR TREES

Although a great many meet with failure in trying to grow this luscious fruit, the lovers of pears will keep on planting. The varieties we have to offer are the very best and most satisfactory for this particular region.

STANDARD PEARS

Kieffer—Very large, handsome pear, keeps well into winter, early and abundant bearer. Each, 50c; per 10, \$4.00.

Goodale—Medium large, excellent flavor, ripens early in July. Each, 40c; per 10, \$3.50.

Seckel—Small, skin rich yellowish brown, the richest and highest flavored pear known. Each, 40c; per 10, \$3.50.

Koonce—Medium to large, spicy, juicy, sweet, and good, season very early. Each, 50c; per 10, \$4.00.

The above varieties in assortment at \$30.00 per 100.

DWARF PEARS

Dwarfs are grown on Quince stock, and should be planted deep. They come into bearing second year after planting and bear yearly.

Duchess de Angouleme—Large size, late fall. Each, 40c; per 10, \$3.50.

Seckel—For description see under Standard. Each, 40c; per 10, \$3.50.

Photograph of Peach Orchard on Home Nursery grounds, the largest in this part of the State. Trees three years planted.

CHERRY TREES

Cherries are all grown on Mahaleb stock that will not sprout from the root. The Early Richmond still takes the lead, and is a most valuable variety, an early and constant bearer. No one should be without this excellent fruit. Trees usually bear the second year after planting.

Two years old, first class, 5 to 6 feet, each, 40c; per 10, \$3.50.

Two years old, first class, 3 to 4 feet, each, 35c; per 10, \$3.00.

Early Richmond—Large, bright red, most popular kind, very productive, bears soon after planting.

Following varieties are arranged in their order of ripening, which extends from June into October. Except as noted, all free stones.

NOTE—Nothing but first-class stock will be sent out. We believe the only way to build up any business is to deal honestly. Remember you get your Trees at first hands.

Alexander—Medium to large, skin greenish white, shaded to rich red, flesh very juicy, cling stone, July 1.

Champion—Large, handsome, early variety, creamy white with red cheek.

Hale's Early—Medium sized, flesh greenish white, half cling, excellent quality, tree very productive.

PEACH SEEDLINGS, Budders at work in part of large field in Home Nursery of Irvin Ingels, Lafayette Ill. Photographed August 15, 1905.

English Morello—Blackish red, juicy, acid, good, very late.

Late Duke—Very large, light red, tree upright grower.

Montmorency—Large, red, very productive, ten days later than Early Richmond.

PEACH TREES

First class, 5 to 7 feet. Each, 25c; per 10, \$2.00; per 100, \$18.00; per 1,000, \$100.00.

Peaches bear somewhat irregular in this country, and some are discouraged about planting them. This is the natural climate for the Peach, and we occasionally have a fine crop. Plant the tree now and be sure of a crop when it comes.

Bokara—Claimed to be the hardest peach known, large, yellow, good quality.

Early Crawford—Large, yellow and excellent quality.

Late Crawford—Same as Early, about three weeks later.

Elberta—Large, yellow, with red cheek, hardy, prolific, one of the leading market sorts.

Crosby—One of the hardest, abundant bearer, yellow, fine quality.

Stump—Very large, white with red cheek.

PLUMS

Plums are of the easiest culture. The trees come into bearing soon after planting, and are annual bearers. There are three distinct classes that are grown here, viz.:

NATIVE—Or those from our wild species found growing along streams everywhere.

EUROPEAN—These introduced from Europe, and called Tame or Domestic Plums, and

JAPANESE—A species recently introduced from Japan from which have sprung many excellent kinds. We are growing only the most valuable varieties of the three different species.

NATIVE VARIETIES

5 to 7 feet each, 35c; per 10, \$3.00.

Wisconsin Red—Called Miner by some, very large, red, flesh solid, sweet, tree an annual bearer.

America—Larger than the average Japan Plum and much larger than our popular native sorts; golden yellow, with pink blush and white bloom; the flesh is moderately firm and of good flavor, keeping well. Tree bears young.

Burbank—Very large, excellent quality, hardy tree, extremely productive.

Chalco—Fruits large, flattened, almost stemless, surrounding the branches in thick ropes; skin violet-purple, covering sweet, firm, yellow flesh. Exceedingly productive. Ripens just before Burbank.

October Purple—A strong, vigorous grower, said to be one of the hardiest of the Japan varieties. Productive, of good

The above is from a photograph of the **BRISTOL PLUM**, showing part of tree and detached limb. It is a chance seedling of European sort planted about forty years ago by Mr. Morris of Henry County. Owing to its great merit there have been a good many sprouts taken from the original tree of which the photograph is one. We have on hand a fine stock of this valuable plum of two and three years old. Trees budded on native plum stocks. Have a large planting of this variety and the fruit has brought the highest price of any plum we have ever grown. It is large size, dull greenish purple, flesh greenish, fine flavor. Fruit hangs on until ripe.

Price, each 75c; per 10, \$5.00

Wild Goose—Old and widely planted, variety large, light red, very early, season July 15.

Wolf—Free stone, large size, red, productive.

JAPAN VARIETIES

Each, 40c; per 10, \$3.50.

Abundance—Large, lemon yellow, oldest and best known sort.

quality, a large, round, late purple plum, especially recommended for late market.

Red June—Recommended as "by all odds the best Japanese plum, ripening before Abundance." One of the vigorous, upright growers; productive; fair size, vermilion red; pleasant quality. Ripens after Willard, a week before Abundance. August.

PLUMS—JAPAN VARIETIES—Continued

Shiro—Very productive of medium-sized, clear light yellow fruits, having a thin white bloom and firm, pleasantly acid flesh. Very hardy and vigorous; valuable for cold sections where some of the best sorts will not thrive. Ripens before Burbank.

Wickson—A sturdy, upright grower, productive almost to a fault. Fruit remarkably handsome, deep maroon-red, covered with white bloom; stone small; flesh fine-textured, firm, sugary and delicious. Excellent keeper and shipper; will keep two weeks after ripening.

GRAPES

2 years old.

No garden should be without grapes as they soon come into bearing and require but little

Niagara—Large, greenish white, excellent quality. Each, 25c; per 10, \$2.00.

Pocklington—Golden yellow, very aromatic and sweet. Each, 25c; per 10, \$2.00.

Worden—One of the best black grapes; berry and bunch large; very productive and hardy. Each, 20c; per 10, \$1.50.

GOOSEBERRIES

2 years old.

Houghton—(American variety), clear red when fully ripe, very prolific and profitable. Each, 15c; per 10, 75c.

Downing—(American variety), large white, valuable. Each, 15c; per 10, \$1.00.

Industry—(English variety), inch to inch and one-fourth in diameter; free from mildew; the best English variety. Each, 25c.

PLUM ORCHARD, HOME NURSERY

attention, always producing abundant crops. The following varieties are found to be the very best for this section of the country.

Agawan—(Roger's No. 15). Old, reliable, large, red, one of the very best; ripens early. Each, 25c; per 10, \$2.00.

Concord—Well known standard variety, succeeds wherever grapes will grow, very prolific. Each, 15c; per 10, \$1.00; per 100, \$6.00.

Moore's Early—Very large, purple, exceedingly hardy, two weeks earlier than Concord. Each, 25c; per 10, \$2.00.

Moore's Diamond—The leading early white grape, vine like the Concord in growth, hardiness, and foliage. Each, 30c; per 10, \$2.50.

CURRANTS

2 years old.

Victoria—Old and reliable sort. Each, 10c; per 10, 75c.

White Grape—Very prolific, mild flavor, large. Each, 10c; per 10, 75c.

Fay's Prolific—Heavy bearer, bright red, large size. Each, 15c; per 10, \$1.00.

Cherry—Very large, mild sub-acid. Each, 10c; per 10, 75c.

Like all other small fruits these need a rich soil to get best results. The worms that eat the foliage can be killed by sprinkling bushes with water to which Paris Green has been added at the rate of a teaspoonful to ten quarts of water. This should be done as soon as bushes leaf out and again in two weeks.

BLACKBERRIES *

If you want low, stocky bushes that will produce large berries, pinch the end of the canes when they get two and a half to three feet high, and following spring cut the side branches back to eighteen inches in length. Cut out all suckers or sprouts that come up between the rows.

Snyder—Well known, valuable, early variety. Per 10c, 25c; per 100, \$2.00.

Erie—Vigorous grower, large berry. Per 10, 50c; per 100, \$3.00.

Ancient Briton—Very hardy, large size, late. Per 10, 50c; per 100, \$3.00.

Photograph of Palmer Raspberry, showing growth of vines, extremely hardy, exceptionally free from disease.

RASPBERRIES

Gregg (Black Cap)—Well known, large, late variety. Per 10, 30c; per 100, \$2.50.

Palmer (Black Cap)—Very early, extra hardy, heavy bearer. Per 10, 30c; per 100, \$2.00; per 1,000, \$12.00. (See Cut.)

Kansas (Black Cap)—Vigorous grower, berries very large and fine, ripens soon after Palmer. Per 10, 40c; per 100, \$2.50.

Miller's—Bright red color which it holds after picking. Stout, healthy, vigorous grower. Berries large, hold their size to end of season, round, bright red, core small; do not crumble; firmest and best shipper; rich fruity flavor. Commences to ripen with the earliest. Per 100, \$2.50.

Cuthbert (Red)—Best of the reds, long season. Per 10, 30c; per 100, \$2.00.

Turner (Red)—Canes thornless, bright red berries. Per 10, 30c; per 100, \$2.00.

Golden Queen—A beautiful, large, golden yellow berry, seedling of the Cuthbert and surpassing that variety in size, beauty, quality and adaptability. Canes hardy, of strongest growth, productive. Should be in every home garden, its beauty and high quality placing it at the head for table use. Per 10, 30c; per 100, \$2.00.

NOTE—Raspberries are one of the most profitable small fruits we have, always commanding a high price. We have tested a great many varieties during the past twenty years, and consider the above list the very best and hardiest. Plant 3 ft. in rows 7 ft. apart. By planting early and late varieties a succession of fruit may be had for over a month.

STRAWBERRIES

First class plants. Per 10, 25c; per 100, \$1.00; per 1,000, \$8.00.

We have special propagating beds and never dig plants from old plantations that have been used for fruiting. This insures strong plants free from disease.

The following varieties will be found to be the best. Have made a specialty of strawberry culture for a number of years, and grow only the kinds we know to be good. When the selection of varieties is left to me, will give good assortment.

Male Varieties.

Female Varieties.

Dunlap.	Parker Earle.
Wm. Belt.	Enormous.
Brandywine.	Lady Thompson.
Gandy.	Haverland.
Rough Rider.	Sample.
Bederwood.	Bubach.

By planting both early and late varieties you can have fresh strawberries from four to five weeks in succession. They produce the most per acre and do it in less time after planting than any other fruit.

NOTE—Have given no description of strawberries as they are all good. While one variety may produce better than another one year, it may not the next. Hence there is no one variety that is the best every year.

Owing to the variability of the pollen, it is a good rule to plant a number of kinds in one plantation. Also set early and late varieties to give a succession of fruit. In growing the plants we keep each variety properly labeled, so that our plants are true to name. They are grown on very strong land; are not to be compared with the small, sickly plants grown on sand and offered at a low price.

ORNAMENTAL TREES

Ash (White)—A rapid growing native tree of fine outline, excellent for avenues and parks.

Height, 7 to 8 ft.; each, 20c; per 10, \$1.50.
Height, 8 to 10 ft.; each, 25c; per 10, \$2.00.

Birch (European White)—Rapid grower, white bark, beautiful for streets, avenues, parks and cemeteries.

Height, 6 to 7 ft.; each, 50c; per 10, \$4.00.
Height, 8 to 10 ft.; each, 75c; per 10, 6.00.
Height, 12 to 14 ft.; each, \$1.00.

Box Elder—Fast growing, makes dense shade.

Height, 7 to 10 ft.; each, 15c; per 10, \$1.00.
Height, 8 to 10 ft.; each, 20c; per 10, 1.50.

Soft Maple—Very rapid grower, makes a beautiful tree; while young should have the leading shoots cut back each year to prevent tree from becoming too large.

Height, 6 to 8 ft.; each, 25c; per 10, \$2.00.
Height, 9 to 12 ft.; each, 35c; per 10, 2.50.
Height, 12 to 14 ft.; each, 40c; per 10, 3.00.
Height, 14 to 16 ft.; each, 50c; per 10, 4.00.

American Sycamore—Rapid growing tree, with large leaves and white bark, fine for avenues.

Height, 8 to 10 ft.; each, 25c; per 10, \$2.00.
Height, 10 to 12 feet, each, 40c; per 10, 3.50.

Poplar, Lombardy—Remarkable for its erect growth and spire-like form.

Height, 10 to 12 ft.; each, 30c; per 10, \$2.50.
Height, 14 to 16 ft.; each, 50c; per 10, 4.00.

General view of Home Grounds, showing residence at right. Tenant houses in foreground. From a photograph.

Catalpa—Large heart shaped leaves, blossom profusely in July, fine for lawns or park.

Height, 8 to 10 ft.; each, 40c; per 10, \$3.50.

Coffee Nut—Corrugated bark, very ornamental.

Height, 6 to 8 ft.; each, 40c; per 10, \$3.50.

Elm (American White)—Makes a rapid growth, attains a large size with spreading top.

Height, 6 to 7 ft.; each, 25c; per 10, \$2.00.
Height, 8 to 10 ft.; each, 40c; per 10, 3.50.
Height, 9 to 12 ft.; each, 50c; per 10, 4.00.

Hard Maple—Medium, slow growth, dense shade, round, spreading top, beautiful tree.

Height, 6 to 8 ft.; each, 40c; per 10, \$3.50.
Height, 8 to 10 ft.; each, 50c; per 10, 4.50.
Height, 10 to 12 ft.; each, 75c; per 10, 5.00.

Poplar Carolina—A hardy native tree of exceedingly rapid growth, pyramidal in form, with large, glossy leaves, grows anywhere.

Height, 8 to 10 ft.; each, 25c; per 10, \$2.00.
Height, 10 to 12 ft.; each, 30c; per 10, 2.50.
Height, 12 to 14 ft.; each, 40c; per 10, 3.00.

The above list of shade trees are all twice transplanted and have well shaped tops, and are far superior to trees dug from the timber.

We have special machinery for digging the large trees and they will be taken up with the least possible injury to the roots.

ORNAMENTAL WEEPING TREES

Cut-leaved Birch—The most popular tree of its class, makes a tall, slender yet vigorous growth, graceful drooping habit, silvery white bark and beautiful cut foliage. Height, 6 to 7 feet; each, \$1.00.

ORNAMENTAL WEeping TREES—Continued

Camperdown Elm—Weeping variety of Scotch Elm. The branches grow horizontally and downward in strangely crooked lines, never getting much higher than where grafted, usually about 6 feet high. Price, 2-year-old head, \$1.00.

Kilmarnock Willow—Makes a fine umbrella-like head, with branches drooping gracefully. Each, 40c.

Mt. Ash—A fast growing, weeping tree, with tortuous spreading branches. Each, \$1.50.

Tea's Mulberry—The most perfect weeping tree grown, does well in any situation, absolutely hardy and easily transplanted. Each, \$1.50.

MISCELLANEOUS

Rhubarb Linneas (Pie Plant)—Fine and tart. Each, 15c; per 10, \$1.00.

Asparagus, Conover's Colossal—Very large, tender. Per 10, 25c; per 100, \$1.50.

Osage Hedge—Plants one year old, first class. Per 100, 50c; per 1,000, \$3.00.

Berry Box Lumber at wholesale prices.

Vegetable Plants in season; Cabbage, Tomato, Celery, etc.

CAUTION—Remember in buying anything of us you are dealing direct with the nursery, and have no tree agent's salary or dealer's commission to pay. We guarantee all stock as represented or money paid for them refunded.

Hardy Hydrangia—Blooms from July until frost. The finest shrub for lawn or border yet introduced. Perfectly hardy and of easy culture. Price of blooming size plants, 18-inch, 40c each; 24-inch, 50c each.

Lilac—Blooms profusely in early spring, very fragrant. Each, 25c.

Pyrus Japonica (Burning Bush)—Flower red, very early. Each, 25c.

Spirea Van Houti—Best of the Spirea, bloom white. Each, 25c.

Syringa Grandiflora—Flowers white, very fragrant. Each, 25c.

Snow Ball—Well known favorite shrub, great bloomer. Each, 25c.

Weigelia Hendersoni—Pink, bloom in June and July so full as to nearly hide the foliage, very desirable shrub. Each, 25c.

Our list of shrubs is not a long one, but it contains all the most desirable kinds that are really hardy in this region.

Hardy Hydrangia. From a photograph, Home Nursery Grounds.

HARDY ORNAMENTAL SHRUBS

Berberberry Thunbergii—A very pretty variety from Japan; of dwarf, graceful habit; foliage small, changing to beautiful bright red early in fall; very showy. Price, each, 25c; per 10, \$1.50.

Bush Honeysuckle—A very popular hardy shrub, pink and white flowers. Each, 25c.

Cornus Sanguinea (Dogwood)—Branches are bright red in winter. Each, 30c.

Calycanthus (Spicewood)—Flowers chocolate in color, sweet scented. Each, 40c.

HARDY CLIMBING PLANTS

American Ivy—Excellent climber, beautiful autumn foliage. Each, 25c.

Trumpet Vine—Large trumpet-shaped flowers, vigorous grower. Each, 25c.

Clematis Jackmani—Large purple, blooms from July until frost. 3 years, each, 75c.

Clematis Henryi—White, an excellent bloomer. 3 years, each, \$1.00.

Clematis Paniculata—Very rapid growth, small, white flower. Each, 50c.

HARDY CLIMBING PLANTS—Continued

Honeysuckle Halliana—Blooms all summer, very fragrant. Each, 35c.

Honeysuckle, Chinese Evergreen—Good bloomer, holds foliage into winter. 3 years, each, 35c.

Purple Wisteria—Splendid hardy climber, flowers in large clusters, pale blue. Each, 35c.

HARDY ROSES

All strong plants 1½ to 3 feet high.

JUNE ROSES

Persian Yellow—Double bright yellow, a fine bloomer. Each, 25c.

Mad. Plantier—Double white, the best white June rose. Each, 25c.

CLIMBING ROSES

Crimson Rambler—Of recent introduction, proves to be extra hardy, free bloomer and strong grower, flowers are produced in clusters of 35 to 40 each; color, dark crimson. 2 to 3 foot plants, blooming size, each, 50c.

White (Thalia)—Identical with Crimson Rambler, differing only in color, which in Thalia is pure, clear white. Large plants, 35c each.

Yellow—Similar to Crimson in style of growth, but individual flowers are larger and clusters smaller. Color, light canary yellow. Large plants, 35c each.

Seven Sisters—Flowers in clusters, opening a light rose color, changing to white beautiful climber. Each, 25c.

Prairie Queen—Well known climber, bright, rosy red, foliage large. Each 30c.

HYBRID PERPETUAL ROSES

Each, 35c; per 10, \$3.00.

Coquette des Alps—One of the finest pure white Hybrid Perpetuals; large, full, finely formed flower; color, pure white, sometimes faintly tinged with pale blush; profuse bloomer.

Paul Neyron—Largest ever-blooming rose known, free bloomer, deep rose color.

Gen. Jacqueminot—Ever-flowering, brilliant, crimson, large, and of hardy habit.

Anna de Diesbach—Brilliant rose color, with long, pointed buds and large, perfectly formed blossom; delightfully fragrant. A vigorous grower and persistent bloomer. One of the best in this class.

Prince Camille de Rohan—Dark crimson, changing to maroon.

NOTE—There are a great many different kinds and classes of Roses of more or less merit. What we have to offer are the most popular and desirable kinds.

EVERGREENS

(All twice transplanted).

American Arbor Vitae—

Height	Each	Per 10	Per 100
10 to 12-inch.....	20c	\$1.00	\$6.00
18 to 24-inch.....	25c	1.50	8.00
2½ to 3 feet.....	35c	2.50	15.00
4 to 5 feet.....	40c	3.00	25.00

The Arbor Vitae is well adapted for either ornamental or windbreaks. Rapid grower, perfectly hardy, native. Easily transplanted. For hedging, set 12 to 16 inches apart; windbreaks, 3 to 4 feet, in rows.

Photograph of Specimen Evergreens. Covered with snow and sleet, on our grounds near residence.

EVERGREENS—Continued**American Arbor Vitae, Pyramidalis—**

Height	Each
3 to 4 feet.....	\$1.00

Spruce, Colorado Blue—

Height	Each	Per 10
2 to 3 feet.....	.35c	\$5.00
3 to 4 feet.....	.50c	3.50

Variety of American Spruce from Colorado, a rapid grower, foliage a beautiful bluish green, sturdy, compact, dense growth. A very handsome tree for lawn or park. Will be the coming tree for shelter belts.

Spruce, Norway—

Height	Each	Per 10	Per 100
18 to 24-inch.....	.20c	\$1.50	\$10.00

This is the big tree of Norway and more widely planted than any other for windbreaks and shelter belts. Of very rapid growth, easily transplanted.

Scotch Pine—

Height	Each	Per 10	Per 100
12 to 18-inch.....	.20c	\$1.50	\$8.00
18 to 24-inch.....	.25c	2.00	12.00
2 to 3 feet.....	.30c	2.50	15.00

The Scotch Pine is a very rapid growing, hardy variety of evergreen, with stout, erect shoots and silvery foliage. Easily transplanted, most valuable for windbreaks and shelter belts. Makes a nice lawn tree.

White Pine—

Height	Each	Per 10	Per 100
2 to 3 feet.....	.35c	\$3.00	\$25.00
3 to 4 feet.....	.40c	3.50	

The White Pine is the most ornamental of all our native pines, makes a very large and symmetrical tree. The most rapid grower of any of the evergreens.

THREE-YEAR APPLE. Part of Block of 85,000 Trees in Home Nursery of Irvin Ingels, Lafayette, Ill. Photographed August 13, 1905.

Where We're At

¶ La Fayette is located 150 miles south-west of Chicago, on the Rock Island and Peoria Railway, midway between the two cities; 45 miles from Peoria, 30 miles from Galesburg, 10 miles from Kewanee and 5 miles from Galva, on the main line of the Q.R.R. In the midst of one of the richest farming communities in the state. Boasts of a population of 300 peace-loving people, electric lights, and an ideal Mutual Telephone Co., with trunk lines to all the adjoining towns, also connects with the Central Union.

¶ The Home Nursery during the season furnishes employment to a large number of the wage-earning people of the village.
